

## SUNSET CENTRAL IDLE WHEN MEN GO ON A STRIKE

Approximately 2,500 Desert  
Their Trains and the South-  
west Now Faces Worst Tie  
Up in Years.

HOUSTON, Tex., Nov. 14.—Approximately 2,500 trainmen and engineers on the Atlantic division of the Southern Pacific known as the Sunset Central lines went on strike at 7 o'clock Thursday night in accordance with an ultimatum presented to the officials of the road by a committee representing the four union organizations involved. The walkout comes after more than six months of negotiations which sought an amicable adjustment of difficulties between the company and the men.

An eleventh hour appeal to the federal board of arbitration and conciliation by the railroad failed to stop the walkout and with engineers, firemen, conductors and trainmen idle from El Paso to New Orleans, the southwest Thursday night faces a possibility of one of the most serious tie-ups of traffic in years.

Railroad officials were silent Thursday night as to what efforts were being made to relieve the situation but reports from other points indicated preparations were being made for the coming of strike breakers. All trains due to leave terminal points after 7 o'clock Thursday night, were annulled until further notice. Those leaving before that time, it was stated by union officials, will complete their runs after which their crews will join the other strikers.

Accomplished Quietly.  
Locally the walkout was accomplished quietly. Promptly at 7 o'clock yard crews left their trains and as other trains reached the terminals here the men ceased work. Similar conditions were reported all over the Sunset Central lines, which embrace a total of 2,400 miles of track.

The Brotherhood of Locomotive Engineers, Brotherhood of Firemen, Order of Railway Conductors, Order of Railway Trainmen are involved in the strike.

The men claim they were unable to secure satisfactory settlement of a list of 67 grievances or to enforce observance of their contract through their respective organizations and when they combined their forces Pres. W. B. Scott and Gen'l Mgr. G. S. Wald of the Sunset Central declined to meet the joint committee. Then a referendum vote was taken. It proved overwhelmingly affirmative.

The grievances include the question of wages, alleged violation of contract by the railroad and various personal complaints.

ABANDON TRAINS.  
NEW ORLEANS, Nov. 14.—All the men in the Algiers shops of the Southern Pacific and all trainmen and engineers on the New Orleans-New Iberia division numbering about 1,000, were called out on strike at 7 o'clock Thursday night.

A train out on the road was abandoned by the crew promptly at 7 o'clock. The crew of a freight was between Algiers and Gretna just across the river from New Orleans, struck at the announced hour and walked into Algiers. The men have been admonished by union officials not to attempt violence but tonight extra deputy sheriffs are guarding the Southern Pacific ferry at Evendale.

## ELKHART CONTRACT WILL EXPIRE SOON

City Officials Have Taken No  
Steps Towards Receiving  
Bids For Lighting of the  
City.

ELKHART, Ind., Nov. 14.—The contract between the city of Elkhart and the Indiana & Michigan Electric Co. for supplying the city with street lights will expire Aug. 1, 1914. No advertisement has yet been made that the board of works will receive bids for a new contract, as required by law, and it is believed it is now too late to do so and still fulfill the legal requirements in such cases. What the effect of this oversight on the part of the administration may be is conjectural.

A statute passed by the last legislature gives boards of works power to contract for furnishing gas, water, electric light, heat, etc., to cities and their inhabitants.

May Cover Lapsed Period by Agreement.

It is possible that the administration will publish an advertisement for bids at its earliest convenience, and that it will not undertake to let a contract until a full year has elapsed from the date of such advertisement. This will leave an interim next fall during which the company may operate the lights under a temporary agreement, permitted by general consent, although not strictly legal, perhaps.

The city budget for 1914 provides for \$17,000 for street lighting. The only item that is higher is the \$28,000 appropriated for the fire department. The next lowest is the \$16,000 for the police department.

## GOVERNMENT MAY OWN ITS TELEGRAPH LINES

Resolution Introduced in Congress  
Calls For Report on Coun-  
try's Annual Bill.

WASHINGTON, Nov. 14.—Government ownership of telegraph and telephone lines in the United States may follow a resolution introduced in the senate Thursday by Sen. Norris, looking toward government ownership of the telegraph system in the District of Columbia. The resolution calls upon the commissioners of the District of Columbia to report to the senate the amount of the government's annual telegraph bill.

"I expect to follow this resolution with either a bill providing for a reduction in rates," said Sen. Norris

## BRYAN IS ATTACKED BY ANTI-SALOON LEAGUE

Secretary of State is Criticised  
For His Action in Aiding in  
the Election of Sen. Lee of  
Maryland.

COLUMBUS, O., Nov. 14.—After a day during which temperance forces from every part of the country assembled at the Fifteenth National convention of the National Anti-Saloon league of America went on record work in greater harmony with the favoring nation-wide prohibition of the liquor traffic to be attained by means of a federal constitutional amendment, opposing the system of licensing or taking revenue from liquor business, urging an attack on Secy. of State Bryan for his part in the recent senatorial campaign in Maryland, the convention adjourned here Thursday night.

National officers were elected Thursday and reorganization of the league to make state associations work in greater harmony with the national organization was effected.

The veiled attack on Secy. Bryan came when the convention adopted a resolution stating that federal officers interfering in state politics should consider themselves the moral, spiritual and political sponsors of the men elected to office through their influence and should hold themselves responsible for the conduct of these men while in office.

Members of the resolution committee said that they had in mind Secy. Bryan and the part he took in the election of Blair Lee as United States senator from Maryland, when the resolution was drawn.

## CAIN ORIGINAL SOURCE OF EVIL

World Previous to His Crime  
Was One Large Family and  
Business Was a Word That  
Was Never Heard.

Cain was the original source of all evil and the first business man according to Rev. David Hill, who spoke at the First Evangelical church Thursday night on "The relation of the tadpole to the monkey and where did Cain get his wife?"

According to Mr. Hill it was Cain who first conceived the idea of dealing in real estate and it was he who first desired to add to his holdings. The world at that time was a large family and each member shared alike. This did not suit Cain who at once set about scheming to increase his worldly possessions.

It was his selfishness and desire for wealth and power that was the forerunner of the evils of the present day. It was this desire that led him to kill his brother Abel. He was jealous and feared that his brother, Abel would get more wealth than he had.

Mr. Hill attacked the Darwin theory and all evolution theories. He said it was impossible for a man to believe in the Bible and at the same time disbelieve that originally he was a monkey or some other form of the lower animal life.

"A man who believes there is a spiritual being and who thinks that the Bible as it is written is a true picture of life, its beginning and the predicted end, will have no room in his heart to believe in the evolution theory."

The church was crowded Thursday night. There have been several additions made to the choir and it has been necessary to remove the pulpit.

Tonight a special car will come and a series of sermons there before coming to South Bend and a large number of people are expected to take the chance to hear him once more. He will speak on "The devil and where he came from."

Thursday, "or a measure providing for government ownership of the telegraph system within the District of Columbia." The resolution was passed.

WASHINGTON, Nov. 14.—Internal revenue officials Thursday cleared up one of the difficulties that has stood in the way of a clear comprehension of the terms of the income tax law among foreign investment brokers and banks, in regard to the procedure necessary in the case of an alien who holds investments in American securities.

In a circular letter to collectors the bureau points out that while coupons or orders for registered interest pay-
